Java Programming Languages

Sungchul Lee

Learning Object

- ➤ Programming Languages
- ➤ High Level Programming Languages

Question

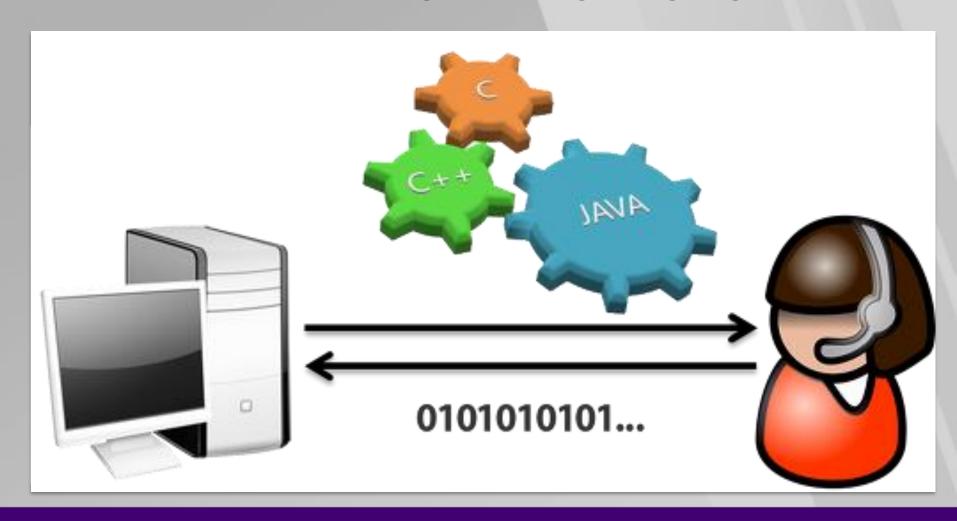

- > What
 - What is the programming Languages?

- >Why
 - Why we have to learn programming languages?

- >How
 - How can we program using the languages?

Programming Languages

➤ Introduction to Programming Languages (PL)

What is Programming?

- Computer programming is the process of building and designing an executable computer program for accomplishing a specific computing task. (Wikipedia)
- >Set of Order
 - Brain (CPU) but, No thinking
- ➤ Make a manual for computer
 - How, when and what to work
- > Well-formed manual
 - Small mistake -> don't understand

Programming Languages

➤ Machine languages (Human hard to read)

➤ Assembly languages

➤ High-level languages

High level language

Compiler/Interpreter

Assembly language

Assembler

O1010100

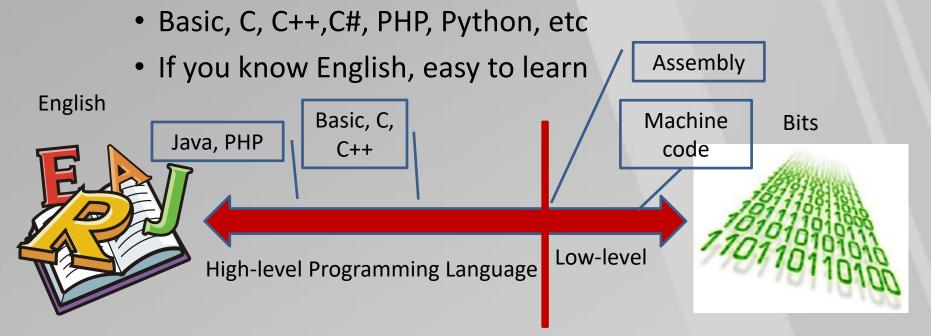

Machine language

CPU

Human Readable Language

Why High Level PL

- Programming language (PL)
 - Low-level PL
 - Machine Code, Assembly
 - High-level PL

High level languages

- >Two major categories
 - Procedural programming (or Structured programming) languages
 - BASIC, C, FORTRAN, PASCAL etc.
 - Object-Oriented languages
 - Java, C++, etc.

Summary

- ➤ Programming Languages
 - Communication between human and computer
- ➤ High Level PL
 - Human Readable Language
 - JAVA
